RE: GULF OF MEXICO RESPONSE

If you are a recipient of this e-mail, the entire staff and management of British Petroleum will like to tender our sincere apology for the trouble our recent oil exploration in the gulf of Mexico might have caused you. The massive oil spill off the American coast, which has not yet been halted and therefore poses a major environmental threat to the area, The states of Louisiana, Alabama and Mississippi have already sustained severe damage.

British Petroleum (BP) has spent some \$3.5 billion for clean-up operations in the Gulf of Mexico and we are still working round the clock to fix this.

But the psychology and traumatic effect cannot be fixed. We are indeed sorry.

To this effect we have resolved to randomly throw a charitable grant with email details provided to us by US Data Service, and provide people the opportunity and money to better their financial status.

You will be provided with \$500,000.00 US Dollars grant, We only ask that you put it into proper use as we like to follow up your progress and posting it on-line to give us a good face. The money is entirely yours for keep thereafter.
